## Design

AVID Home Studios creates custom and stock home plans that are complete and accurate. With their exclusive DesignerDirect™ service, you collaborate with staff designers and not administrative middle men. Even more, A-Link™ remotely connects you to the AVID CAD network as skilled operators develop your design on your home computer. You won't find a more streamlined and efficient design process.

- Stock plans
- Custom Design Services
- Rendering
- Modifications
- In-house design staff

## Engineering

Keymark engineers design and perform load calculations on your roof, flooring and wall panels. Using local building codes, wind loads, seismic loads and your personal construction methods, Keymark creates construction documents and working drawings that you **and** your subs can **really** use. Better yet, Keymark can seal your plans in the 48 contiguous states.

- Sealed in 48 states
- Load calculations
- Joist & beam design
- Truss design
- Wall panel design
- Whole house analysis

## Materials

Data from your engineered plans links to truss, floor and wall panel fabrication through KeyBuild® - Keymark's manufacturing services. Framing is labeled and referenced for positioning and orientation promoting efficient assembly, lower labor costs, reduced waste and fewer construction delays. Keymark is *Changing the Way You Build™*

- Material estimates
- Inventory management
- Truss manufacturing
- Flooring packages
- Wall panel fabrication
- Product labeling

## On Site Support

Your business is serviced by a national network of highly trained personnel using the latest tools and processes. Local representatives know you and your market. This personal service and timely support proves AVID is *"Where Better Building Begins!"™*

- Market Managers
- Regional Studios
- Designer Direct
- A-Link
